

Teaching & Learning in the 21st Century

Inservice Points 60 Component No. 2-007-025

General Objective:

- 1. To expand hands-on learning.
- 2. To participate in an instructor-led program, virtual or in-person, to bring a new approach to classroom teaching.
- 3. Share new skills with students.
- 4. Create ways to increase student participation, promoting effective learning.

Specific Objectives:

- 1. Increase technology skills and strengthen understanding of developing technologies such as AI.
- 2. Explore, enhance, and broaden current curriculums.
- 3. Use/share appropriate TedTalks, YouTube, and other media options.
- 4. Explore courses such as Adobe, InDesign, Photoshop, etc., as well as free courses i.e., Coursera, edX, Udemy, and AI Select Learn.

Activities:

- 1. Enroll in hands-on course(s).
- 2. Create lesson plans/or activities to enhance the classroom experience.
- 3. Present relevant material to appropriate faculty and staff members for classroom implementation.

Evaluation:

- 1. Complete the Independent Activity form. Evaluate the success of the program.
- 2. One-on-one meeting with direct supervisor, department chair, etc.
- 3. The supervisor/peer teacher will either review the information presented by the participating teacher or observe classroom implementation and provide constructive feedback.
