

Importance of Global Education

Inservice Points 60

Component No. 2 007 019

General Objectives

1. Prepare students and teachers to be global citizens by learning global perspectives, cultural competency, and best practices to prepare our students for a global world.

Specific Objectives

1. Develop global competence as an educator.
2. Learn about and develop best practice strategies and global learning experiences to engage your students.
3. Examine educational practices and systems from different countries.
4. Network with educators from across the globe.
5. Explore connection service and activism for civic engagement.
6. Demonstrate cultural competency through a dynamic dialogue.
7. Develop compassionate, responsible, and engaged citizens.
8. Learn to inspire students to think globally and act locally.

Activities

1. Activities will include participatory workshops and demonstrate new methods of teaching global education.

Evaluation

1. Implement teachings in the classroom.
2. Evidence in work with students
3. Participants will complete a workshop evaluation form.
