

# **Electronic Resources, Multimedia, and Web 2.0 Tools**

---

20 Inservice Points

Component No. 3 007 009

---

## **General Objectives**

1. To acquire skills in using computers at all grade levels to integrate and enhance instruction.
2. To learn the use of computerized library resources and programs.
3. To maximize the utilization of the Teacher Web Page, online shared calendar, and Web 2.0 tools to collaborate, teach, learn, and communicate.

## **Specific Objectives**

1. To review and evaluate online programs and textbooks appropriate for students at all developmental levels.
2. To promote the circulation of and work with library materials for research and independent reading.
3. Review and improve skills in the use of online material and Web 2.0 tools both for collaboration among colleagues, communication with the community, and students' projects.

## **Activities**

1. Participants will engage in workshops and coaching sessions to develop skills in computer use.
2. Participants will continue to actively encourage and assist students in searching and utilizing library resources
3. Participants will plan and implement online collaborative projects and online communication at grade level meetings, faculty meetings, and coaching sessions.

## **Evaluation**

1. Ongoing assessment
2. Increased circulation and use of library material and Accelerated Reader Program as reflected by data and reports, use of computer station in library, and computer lab at the point of instruction.
3. Improved communication among faculty, with the community, and beyond (other schools)
