

Topics in Assessment and Grading

30 Inservice Points

Component No. 4 007 003

General Objectives

1. To increase awareness of grading and assessment models that address the varied needs of learners in the classroom.
2. To expand the application of varied methods of assessment and grading by classroom teachers.

Specific Objectives:

1. Provide resources and discussion regarding assessment models.
2. Provide information regarding grading and the reporting of student progress.
3. Provide a collaborative model of teacher investigation of the topics provided.
4. Provide examples and practical applications of grading and assessment models.

Activities

1. Participation in the preparation and presentation of assigned topics.
2. Participation in large and small group presentations of topics.
3. Reading and research on assigned topics.
4. Preparation of workshop on assigned topic that provides for instruction, discussion and application.
5. Use of PowerPoint presentations and online resources to expand the flow of instruction on assigned topics.

Evaluation

1. Evaluation form
2. Individual participation in assigned workshops
3. Compilation of notebook of material handed out on assigned topics.
