

Reflective Practice for Enhanced Learning

30 Inservice Points

Component No. 5 404 004

General Objective

To enhance classroom learning through the use of reflective teaching practice utilizing teachers as researchers

Specific Objectives:

1. Specific topics for review will be identified by interest groups
2. Research questions will be reviewed and refined
3. Literature reviews will be conducted and research methods identified
4. Plans will be developed for implementation of research.

Activities

1. Participants will participate in self-reflection activities to determine common goals
2. Participants will identify areas of shared educational focus for further study
3. Small research groups will be formed to jointly define a research question
4. Participation in workshop on utilization of research databases for professionals
5. Participation in workshop reviewing research methods and their application
6. Small research groups will develop a research plan to implement in educational setting

Evaluation

1. Self-evaluation of participation and completion of program goals.
2. Developed research question, methods and plan for implementation will be reviewed
3. Presentation to peers of work completed and resources utilized
4. FCIS evaluation form
