

Values Education Workshop

30 Inservice Points

Component No. 8 503 001

General Objective

To survey contemporary pedagogical methodologies and their application in the teachings of current moral issues.

Specific Objectives

1. To understand the child growth process from infancy through the stages leading to maturity.
2. To study the factors which influence the formation of conscience, such as: level of education, emotional stability, self-knowledge, and the ability for clear objective judgment.
3. To review the content and methodology of current instructional programs regarding value-education.
4. To investigate the social and cultural differences present in our society which may affect the teaching of moral values.
5. To learn practical approaches to teaching with music.
6. To learn methods of teaching with pictures, posters, and collages.
7. To study the use of audio-visual media in teaching values.

Activities

1. Lecture/Audio-visual presentation
2. Assigned readings
3. Discussion/group activities

Evaluation

1. An ability to discuss the required readings.
2. Class presentations.
3. Pre and post test or attitudinal survey.
4. Participants will complete a workshop evaluation form.
